ISCAR PhD Students' Day

Join us on the 5th September 2011, in Rome (Italy)!!!

Dear Colleague,

The day before the 2011 ISCAR Congress (the 05th September 2011) will be devoted to two separate events: PhD Students' Day and CHACDOC Pre-Conference.

The PhD Students' Day will give special attention to PhD thesis, focusing on the different phases of doctoral research. There will be spaces/times for dialogues, presentations and debates, including the participation of Senior Researchers that will discuss parts of PhD students' work and provide some suggestions. For instance, the opportunity of discussing data analysis will be given to doctoral students who have already collected their empirical data.

PhD Students have the possibility to submit a proposal both to ISCAR CONFERENCE and to the PhD Students' Day (poster presentation, oral presentation or PhD Dialogue). But they must send different proposals to each event.

Proposals submission begins **on the 15 July 2010!**

Thus, the sooner you send your proposals, the best.

Submission is until the **04 September 2010**.

Three types of proposals will be accepted: posters, papers and PhD thesis dialogues (see more information on Proposal Submission for the PhD Students' Day >>

http://www.iscar2011.org/eng/pre-conf_call_phd_day.php

You can find the detailed PhD Students' Day Schedule at the web page

http://www.iscar2011.org/eng/pre-conf_schedule.php

At least 8 Senior Researchers will be invited to chair the various sessions and participate in the PhD Dialogues. Their names will be announced soon.
