

# Informational Session Thurs 4pm 9/26

Community University Science Partnership: a collaborative of UCSD, San Diego City College, Reuben H Fleet Science Center, and area high schools

**Get** independent study and service-learning **credit** for San Diego City College

Learn science and technology in an **innovative and fun** way by helping the public at the Reuben H. Fleet Science center.

Work with **UCSD graduate students faculty and staff** Flexible hours.

## How it works:

Join workshops 1 day per week held at the Fleet Science Center and earn independent study credit. Participate at least 10 hrs / week as a Fleet Interpreter (working on the floor of the science center) and earn service learning credit.

Under the guidance of UCSD physics graduate students and Reuben H Fleet education staff, San Diego City College students cover basic and concepts in physics and technology. The curriculum takes the form of weekly workshops where students learn the physics underpinning the various exhibits at the Fleet. Students are expected to engage in hands-on laboratories with the Fleet exhibits. In addition to learning basic principles behind the exhibits, students are offered the opportunity to conduct individual projects (under the supervision of physics graduate students) in order to develop a deeper understanding of the underpinning science of one or more of the Fleet exhibits. In the process of so doing, students are expected to develop research and presentation skills (both oral and written)

**When:** Thursdays 4-6pm & time of your own choosing

**Where:** Reuben H Fleet Science Cntr- 1875 El Prado (just off Park Blvd East of SDCC)

## Benefits:

- **credit**
- **passes to the Fleet**
- **trips to UCSD**
- great work experience

**Contact:** Dr. Poovan Murugesan office: M210 City College

Dr. Noah Finkelstein 858 534 7198 UCSD contact, [nfinkels@ucsd.edu](mailto:nfinkels@ucsd.edu)
