

Postdoctoral training applications invited

The Center for Mental Health Services Research, George Warren Brown School of Social Work, Washington University in St. Louis, invites applications for postdoctoral training in mental health services research. The program is supported by a National Research Service Award (NRSA) Institutional Training Grant from the National Institute of Mental Health of the U.S. Public Health Service (NIMH - T32 MH19960).

Program focus. Our program aims to expand the pool of investigators capable of undertaking mental health services and systems research with particular focus on the implementation of evidence based mental health care. Other priorities include: improving the quality of mental health care; mental health services to public social service clients; intervention adaptation and development; vulnerable populations; developmental disabilities; and system dynamics. The Program is committed to multidisciplinary training. Training appointments are typically for two years.

Who should apply? We invite applications from individuals with an earned Ph.D. from such fields as social work, psychology, health services, organizational psychology, nursing, anthropology, public health, or management, or an M.D. We seek to recruit ambitious researchers with demonstrated experience and enthusiasm in the study of mental health services. Washington University in St. Louis is committed to building a diverse academic community and encourages members of underrepresented groups to apply.

Information and applications: Information about the program is available here: <http://cmhsr.wustl.edu/Training/Pages/Post-DoctoralTraining.aspx>

Candidates should submit a letter of inquiry, vita, contact information of three professional references, and samples of written/published material to:

Enola K. Proctor, PhD, Director, T-32 Training Program,
postdoc@brownschool.wustl.edu; (314) 935-6660
