

ANNOUNCEMENT OF POSTDOCTORAL FELLOWSHIP POSITION

The Carolina Consortium on Human Development at the Center for Developmental Science invites applications for NICHD (NRSA) postdoctoral traineeships. Multiple positions will be available for one year appointments, with renewal for a second year contingent on satisfactory performance and available funding. Advanced training will be provided in the longitudinal study of individual development over changing contexts (e.g., families, peer groups, schools) using multiple levels of analysis ranging from biology to socio-cultural. Specific areas of focus vary over trainee-mentor teams (e.g., psychology, education, sociology, public health, neuroscience, medicine, nursing, quantitative methodology). Faculty mentors have primary appointments in over 20 departments or schools at six neighboring universities and colleges (Duke University, Meredith College, North Carolina Central University, North Carolina State University, University of North Carolina at Chapel Hill, and University of North Carolina at Greensboro.) Fellowship candidates are expected to have a demonstrated commitment to transdisciplinary longitudinal study, and must have completed a terminal degree in their field (e.g., PhD, MD, DrPH, EdD) by the time of their appointment. In accordance with NIH regulations, applicants must be US citizens or permanent residents.

A detailed description of the fellowship program and brief descriptions of some sample specific opportunities can be obtained from the CDS home page at <http://cds.web.unc.edu/>.

The online application is available at <http://www.surveygizmo.com/s/250068/postdoctoral-fellowship-application>.

Letters of recommendation can be uploaded at <http://www.surveygizmo.com/s/423628/letter-of-recommendation-upload>.

The online application requires basic information along with a letter of interest, a statement of the candidate's proposed research with current CCHD faculty members, a curriculum vita, and examples of research and/or publications. Additionally, three letters of recommendation and graduate transcripts can be uploaded or sent to the attention of Jennifer Coffman (contact information below).

Applicants can contact Jennifer Coffman for further information concerning the application process:

Jennifer Coffman, Ph.D.
